NEWBORN

Staged Collection

- Staged photos are done with safe and minimal posing arrangements that appear more natural. I don't do poses such as the "froggy pose", while this looks cute, these to me are unnecessary and not the safest position for a newborn to be placed in for photography purposes, client safety is of utmost importance to me.
- Booking date: With babies having an agenda of their own, I understand a certain date cannot be promised surrounding the birth of your little one. We will discuss an ideal date you will pencil in which can be shifted according to when you are home and ready with your baby. I ask that you contact me once baby has arrived to arrange the date. Ideally it is best to do your Newborn photos when they are within the first week of two as they are easiest to work with in this time.
- Prior to your Newborn Photo Session, it is recommended your little one has been bathed, fed, and changed before we start.
- Photographs are staged within Studio or...
 - Studio set up brought to your own home where spaces allow, this must be discussed prior to booking. A decent amount of space is required in an open well-lit area within your home for most occasions. Studio lighting can be brought into your home where needed if space permits for this only.
 - Please ensure you don't have family and friends visiting at the time of your booking. This is to ensure there are no disruptions and best results are achieved within the time allowance of your photo session. I understand a lot of family and friends like to pop in over the newborn stage 😊 Please be aware that an audience is not ideal in a photograph session, and it can be a little overwhelming for a new mum and baby with a hectic space of people. My interest is to maintain a calm space for my clients during our photograph session.
- A selection of Newborn wardrobe pieces is provided, including wraps, outfits, headwear, baskets, bowls, florals, leaves, seashells, textures etc. Consultation prior to your photoshoot discusses what ideas you would like to bring to life.
- Clients may also include own wardrobe / special items of their own if desired.
- Newborn sessions can take anywhere from 1 to 3 hours depending on your little one's temperament on the day, so please make sure to allow yourself up to 3 hours. This time includes where you need to change nappies, feed, settle etc in between photographs.
